

FIND, HIRE & TRAIN

Today, more than ever, North Carolina businesses are challenged to find, and retain workers with the right skills needed to perform at adequate levels to ensure their company's future. This challenge has become harder as the demand for competitive pricing and high quality products drive global markets.

WorkKeys will help your company meet the challenge by providing a comprehensive, legally compliant solution offered by the American College Testing program for selection, promotion, recruitment and training.

WorkKeys is a job skills assessment system measuring "real world" skills that employers believe are critical to job success. These skills are valuable for any occupation- skilled or professional-and any level of education. Assessments offer workplace-based skills measurements that place incumbent or prospective employee on a common scale. So when hiring or promoting you can be confident that the incumbent or prospective employee meets or exceeds the minimum requirements of the targeted occupation.

Employers can use WorkKeys Job Profiling assessments to validate the skill requirements for an occupation and have the assurance of basing their hiring or promotion decisions on a legally compliant assessment.

The Region Q Workforce Development Board can help improve your business and workforce. We offer WorkKeys services within your financial means, at selected locations and during your preferred hours of operation.
